Web Development

Nov 2024 - Jan 2025

Internshala Trainings, Virtual

PROJECTS

[Food Delivery Website ↗](#)

Mar 2025

Developed a responsive front-end using HTML, CSS, and JavaScript to enhance user experience on various devices.

Engineered the back-end with PHP and MySQL, implementing order management and data base management systems.

Completed the full project in 24 hours during a hackathon at Graphic Era Hill University, focusing on performance optimization and functionality.

[GEHU PYQs – Previous Year Question Paper Sharing Portal ↗](#)

Jul 2025 - Present

- Built a web-based platform to share Graphic Era Hill University's previous year question papers (PYQs) using PHP, MySQL, HTML, and CSS.
- Implemented user-friendly course and semester-wise subject selection.
- Enabled admin dashboard for secure paper uploads, deletions, and approval-based publishing.
- Added features like dark mode, semester-wise grid layout, and session-based login.
- Project includes subject management for BCA, BBA, B.Tech, MBA, MCA, and B.Com (Hons) programs.
